About me

I am a Tech lover, last year I decided that I not only want to consume technology but I also want to create it. For this reason and because I consider that solving problems with technology is a historic opportunity, I dared to change from Finance to Tech.

Projects

Explora

Marketplace to get a tour ticket
With Explora I want to digitize the process of acquiring a Tour, the mission with this project is that acquiring a Tour is as easy as buying a ticker for the cinema. Click me
